Please submit your survey data by January 30, 2015.

This survey collects data on research and development (R&D) activities at higher education institutions. Please report R&D activities and expenditures for your institution’s 2014 fiscal year.

Your participation in this survey provides important information on the national level of R&D activity. The National Science Foundation (NSF) is authorized to collect this information under the National Science Foundation Act of 1950, as amended. Your institution’s response is entirely voluntary.

Questions?

Ronda Britt
National Center for Science and Engineering Statistics
National Science Foundation
rbritt@nsf.gov
(703) 292-7765

Response to this survey is estimated to require 54 hours. If you wish to comment on the time required to complete this survey, please contact Suzanne H. Plimpton of NSF at (703) 292-7556, or e-mail splimpto@nsf.gov.

The Web address for submitting your data:
http://www.herdsurvey.org

Or mail this form to:
ICF International
530 Gaither Road, Suite 500
Rockville, MD 20850

Thank you for your participation.
What’s New for FY 2014

The Office of Management and Budget's (OMB) Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR Part 200) will be implemented on December 26, 2014. The new guidance supersedes requirements from several OMB circulars, including A-21 and A-133. Survey instructions have been revised to be consistent with the new guidance, as follows:

- **Survey Definitions and Instructions:** The definition of R&D expenditures now refers to 2 CFR Part 200 Appendix III rather than OMB Circular A-21 when defining organized research. Organized research has the same definition in both documents.

- **Questions 7 and 8:** Instructions have been revised to specify that expenditures from contractor or vendor relationships should not be reported as subrecipient or pass through funds. Instructions now refer to CFR Part 200 Subpart D Section 330 rather than OMB Circular A-133. The term contractor was added under the revised OMB guidance, for purposes of consistency and clarity, to replace areas in the previous guidance that referred to vendors. For the purposes of this survey, contractor and vendor have the same meaning.
Survey Definitions and Instructions

Fiscal year (FY)
Please report data for your institution’s 2014 fiscal year.

Research and development (R&D) is creative work conducted systematically to increase the stock of knowledge (research) and to use this stock of knowledge to devise new applications (development). R&D covers three activities defined below—basic research, applied research, and development.

- **Basic research** is undertaken primarily to acquire new knowledge without any particular application or use in mind.
- **Applied research** is conducted to gain the knowledge or understanding to meet a specific, recognized need.
- **Development** is the systematic use of the knowledge or understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including the design and development of prototypes and processes.

R&D expenditures
Include all R&D expenditures from your institution’s current operating funds that are separately accounted for. For purposes of this survey, R&D includes expenditures for organized research as defined by 2 CFR 200 Appendix III and expenditures from funds designated for research.

**R&D includes:**
- Sponsored research (federal and nonfederal)
- University research (institutional funds that are separately budgeted for individual R&D projects)
- Startup, bridge, or seed funding provided to researchers within your institution
- Other departmental funds designated for research
- Recovered and unrecovered indirect costs (see definitions in Question 1)
- Equipment purchased from R&D project accounts
- R&D funds passed through to a subrecipient organization, educational or other
- Clinical trials, Phases I, II, or III (see definition in Question 5)
- Research training grants funding work on organized research projects
- Tuition remission provided to students working on research

**R&D does not include:**
- Public service grants or outreach programs
- Curriculum development (unless included as part of an overall research project)
- R&D conducted by university faculty or staff at outside institutions that is not accounted for in your financial records
- Estimates of the proportion of time budgeted for instruction that is spent on research
- Capital projects (i.e., construction or renovation of research facilities)
- Non-research training grants
- Unrecovered indirect costs that exceed your institution’s federally negotiated Facilities and Administrative (F&A) rate

Please **include** these components of your institution:

- All units of your institution included in or with your financial statements, such as:
  - Agricultural experiment stations
  - Branch campuses
  - Medical schools
  - Hospitals or clinics
  - Research centers and facilities
  - A university 501(c)3 foundation

Please do **not include**:

- Federally Funded R&D Centers (FFRDCs). This information is collected separately. See the list of FFRDCs: http://www.nsf.gov/statistics/ffrdc/.
- Other organizations or institutions, such as teaching hospitals or research institutes, with which your institution has an affiliation or relationship, but which are **not** components of your institution.
- Other campuses headed by their own president, chancellor, or equivalent within your university system. Each campus is asked to respond separately.
Question 1. How much of your total expenditures for research and development (R&D) came from the following sources in FY 2014? (See definition of R&D on the previous page.)

- In rows a, b, c, d, and f: Include both direct and recovered indirect costs (reimbursement of F&A costs from external sponsors).
- Report the original source of funds, when possible.
- Include all fields of R&D (e.g., sciences, engineering, humanities, education, law, arts). See full listing in Question 9.

<td>$1805</td>
</tr>
</tbody>
</table>

1 Information from confidential items is not published or released for individual institutions; only aggregate totals will appear in publications. In accordance with the National Science Foundation Act of 1950, as amended, and other applicable federal laws, your responses will not be disclosed in identifiable form to anyone other than agency employees or authorized persons.  
2 Totals for rows e4 and g are automatically generated on the Web survey.
<table>
<thead>
<tr>
<th><strong>Question 1.1. Did you include the following types of funding in your responses to Question 1, row e1?</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>a. Competitively awarded internal grants for research</strong></td>
</tr>
<tr>
<td>Expenditures for organized research projects, involving a proposal or statement of work with expected research outcomes.</td>
</tr>
<tr>
<td><strong>b. Startup packages/bridge funding/seed funding</strong></td>
</tr>
<tr>
<td>Expenditures from funds provided to faculty members to begin or continue their research while seeking external sponsors.</td>
</tr>
<tr>
<td><strong>c. Other departmental funds designated for research</strong></td>
</tr>
<tr>
<td>Expenditures for research from other departmental or central accounts which do not match the descriptions provided in rows a or b.</td>
</tr>
<tr>
<td><strong>d. Tuition assistance for student research personnel</strong></td>
</tr>
<tr>
<td>University tuition assistance, waivers, or remission provided to students working on organized research. Please check “Included” even if these funds are reported as part of the expenditures included under Question 1 rows a, b, or c.</td>
</tr>
</tbody>
</table>
Question 2. How much of the total R&D expenditures reported in Question 1, row g, came from foreign sources?

- Include foreign governments, businesses, universities, nonprofit organizations, and any other entity sending funds to the U.S. from a location outside the U.S. and its territories.
- Projects sponsored by a U.S. location of a foreign company are **not** considered foreign.
- Include international governmental organizations located in the U.S., such as the United Nations, the World Bank, and the International Monetary Fund.

<table>
<thead>
<tr>
<th>R&amp;D expenditures (Dollars in thousands)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total R&amp;D expenditures from foreign sources</td>
</tr>
</tbody>
</table>

Question 3. Of the total R&D expenditures that were externally funded (all sources other than the institutional funds reported in Question 1, row e4), how much was received under each of the following types of agreements?

<table>
<thead>
<tr>
<th>R&amp;D expenditures (Dollars in thousands)</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Contracts (including direct or prime contracts and subcontracts)</td>
</tr>
<tr>
<td>b. Grants, reimbursements, and all other agreements</td>
</tr>
<tr>
<td>c. Total1</td>
</tr>
</tbody>
</table>

1. The column total is automatically generated on the Web survey.

Question 4. Of the total R&D expenditures reported in Question 1, row g, how much was expended for R&D projects in your medical school?

Include projects that are assigned to the medical school or to research centers that are organizationally part of the medical school.

If your institution does not have a medical school (that is, a school that awards the MD or DO degree), check here and go to Question 5.

<table>
<thead>
<tr>
<th>R&amp;D expenditures (Dollars in thousands)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total R&amp;D expenditures in the university's medical school</td>
</tr>
</tbody>
</table>
**Question 5.** Of the total R&D expenditures reported in Question 1, row g, how much was expended for Phase I, Phase II, and Phase III clinical trials with human patients?

**Clinical trials** are research studies designed to answer specific questions about the effects of drugs, vaccines, medical devices, tests, treatments, and other therapies for patients. Clinical trials are used to determine safety and effectiveness.

For reference, the National Institutes of Health (NIH) categorizes human clinical trials into the following four phases.

Please **include**:

- Phase I uses a small group of human patients (20–80) to evaluate safety and identify side effects.
- Phase II uses a larger group (100–300) to test effectiveness and further evaluate safety.
- Phase III uses a large group (1,000–3,000) to confirm effectiveness, monitor side effects, compare to commonly used treatments, and collect safety information.

Please **exclude**:

- Phase IV is a post-market study that collects more information on risks, benefits, and optimal use.

If your institution did **not** conduct any clinical trials in FY 2014, check here: 

<table>
<thead>
<tr>
<th>R&amp;D expenditures (Dollars in thousands)</th>
<th>(1) Federal</th>
<th>(2) Nonfederal</th>
<th>(3) Total¹</th>
</tr>
</thead>
<tbody>
<tr>
<td>Human clinical trials</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Trials with human patients</td>
<td>$_____ 0</td>
<td>$_____ 0</td>
<td>$_____ 0</td>
</tr>
</tbody>
</table>

¹ The row total is automatically generated on the Web survey.
Question 6. What amounts of your FY 2014 R&D expenditures were for basic research, applied research, and development?

If possible, these categories defining the character of work should be coded at the individual project level by the principal investigator. Estimates are acceptable if necessary.

See the table below this question for examples.

<table>
<thead>
<tr>
<th>R&amp;D expenditures (Dollars in thousands)</th>
<th>(1) Federal</th>
<th>(2) Nonfederal</th>
<th>(3) Total¹</th>
</tr>
</thead>
<tbody>

### Examples

<table>
<thead>
<tr>
<th>Basic research</th>
<th>Applied research</th>
<th>Development</th>
</tr>
</thead>
<tbody>
<tr>
<td>A researcher is studying the properties of human blood to determine what affects coagulation.</td>
<td>A researcher is conducting research on how a new chicken pox vaccine affects blood coagulation.</td>
<td>A researcher is conducting clinical trials to test a newly developed chicken pox vaccine for young children.</td>
</tr>
<tr>
<td>A researcher is studying the properties of molecules under various heat and cold conditions.</td>
<td>A researcher is investigating the properties of particular substances under various heat and cold conditions with the objective of finding longer-lasting components for highway pavement.</td>
<td>A researcher is working with state transportation officials to conduct tests of a newly developed highway pavement under various types of heat and cold conditions.</td>
</tr>
<tr>
<td>A researcher is studying the heart chambers of various fish species.</td>
<td>A researcher is examining various levels of a toxic substance to determine the maximum safe level for fish in a stream.</td>
<td>A researcher has a contract with the U.S. government to design a new stream monitoring system that will incorporate the latest research findings on toxicity levels for fish.</td>
</tr>
</tbody>
</table>
Question 7. How much of your R&D expenditures reported in Question 1 did your institution receive as a subrecipient?  

Please report the original source of funds in columns (1) and (2) and the pass-through source in rows a–d. 

The **subrecipient** for an award carries out the work but receives the funds from a pass-through entity rather than directly from the original funding source. Subrecipients tend to be the co-authors of publications, writers of technical reports discussing findings, inventors, etc. Do **not** include contractor or vendor relationships. A contractor or vendor receives payment for goods and services provided. See 2 CFR Part 200 Subpart D Section 330.

**Examples:**
- A university receives federal funds from another university as a subaward. (Row a, column 1).
- A university receives federal funds from a company as a subaward (Row b, column 1).

<table>

<td>$________ 0</td>
<td>$________ 31</td>
</tr>
</tbody>
</table>

1 Row and column totals are automatically generated on the Web survey.
Question 8. How much of the R&D expenditures reported in Question 1 did your institution pass through to subrecipients?

Please report the original source of funds in columns (1) and (2) and the entity receiving the funds in rows a–d.

Do not include contractor or vendor relationships. A contractor or vendor receives payment for goods and services provided. See 2 CFR Part 200 Subpart D Section 330.

Examples:
- Your institution passed through federal funds to another university (Row a, column 1).
- Your institution passed through funds from a company to another university (Row a, column 2).

1 Row and column totals are automatically generated on the Web survey.
Question 9A. What were your FY 2014 R&D expenditures in engineering funded by the federal agency sources below? (R&D expenditures from nonfederal sources will be reported in Question 12.)

- Question 9 total (page 16, row K, column h) should match Question 1, row a.
- Please see “Related Information” on survey website for a list of the subagencies belonging to each agency shown below.
- If an individual project involves more than one of the 36 fields of R&D, please prorate expenditures when possible and report the amount for each field involved.
- For subrecipient funding, report the agency that sponsored the original award.

**R&D expenditures from federal sources**

Examples of Disciplines: Life Sciences Fields of R&D

**F. Life Sciences**

1. **Agricultural sciences**
   - Agricultural chemistry
   - Agricultural economics—report in Social sciences, Economics
   - Agricultural engineering—report in Engineering
   - Agricultural production
   - Agronomy
   - Animal science
   - Aquaculture
   - Conservation
   - Fish and wildlife
   - Forestry
   - Horticulture
   - International agriculture
   - Landscape architecture
   - Plant sciences
   - Renewable natural resources
   - Soil sciences

2. **Biological sciences**
   - Allergies and immunology
   - Anatomy
   - Bacteriology
   - Biochemistry
   - Biogeography
   - Biology, general
   - Biometrics
   - Biophysics
   - Biostatistics
   - Biotechnology

3. **Medical sciences**
   - Anesthesiology
   - Cardiology
   - Colon and rectal surgery
   - Dental surgery
   - Dentistry

4. **Other life sciences**
   - Preventive medicine
   - Psychiatric nursing
   - Psychiatry
   - Public health
   - Radiation biology/ Radiobiology
   - Thoracic surgery
   - Urology
   - Veterinary medicine—see note below

**Note:** Please report veterinary R&D expenditures using agricultural sciences, biological sciences, and medical sciences, as appropriate.

2 Row and column totals are automatically generated on the Web survey.

Examples of Disciplines: Psychology, Social Sciences, and Other Sciences Fields of R&D

G. Psychology
- Animal behavior
- Art therapy
- Clinical psychology
- Educational psychology
- Experimental psychology
- Human development and personality
- School psychology
- Social psychology

H. Social Sciences (continued)

2. Political science
- Comparative government
- Government
- International relations and affairs
- Legal systems
- Political theory
- Public administration
- Public policy analysis
- Regional studies

3. Sociology
- Anthropology, cultural and social
- Anthropology, physical—report in Life Sciences, Biological Sciences
- Comparative and historical sociology
- Complex organizations
- Cultural and social structure
- Demography
- Group interactions
- Population studies
- Social problems and welfare theory

4. Other social sciences
- Archaeology
- Area and ethnic studies
- City and community planning
- Community services
- Corrections
- Criminal justice
- Geography
- History of science
- Linguistics
- Urban affairs
- Urban and regional planning
- Urban studies

I. Other Sciences
Use this category for R&D that involves at least one S&E field (rows A–H) if it is impossible to report multidisciplinary or interdisciplinary R&D expenditures in specific fields.
Question 9J–K. What were your FY 2014 R&D expenditures in the non-science and engineering (non-S&E) fields funded by the federal agency sources below? (R&D expenditures from nonfederal sources will be reported in Question 12.)

<table>

K. Total for All Fields of R&D

Total for row K, column h should equal Total for Question 1, row a.

1 Key: USDA, Department of Agriculture; DoD, Department of Defense; Energy, Department of Energy; HHS, Department of Health and Human Services; NASA, National Aeronautics and Space Administration; NIH, National Institutes of Health; NSF, National Science Foundation. “Other” includes all other federal agencies.

2 Row and column totals are automatically generated on the Web survey.

Examples of Disciplines: Non-S&E Fields of R&D

J. Non-S&E Fields

1. Education
   (no specific examples)

2. Law
   Legal studies

3. Humanities
   English language and literature
   Foreign languages and literature
   General studies and humanities
   History (except history of science—report in Other social sciences)
   Letters
   (continued)
   Liberal arts and sciences
   Philosophy and religion
   Theological studies and religious vocations

4. Visual and performing arts
   (no specific examples)

5. Business and management
   Business management and administrative services
   Marketing distribution
   Marketing operations

6. Communication, journalism, and library science
   Communication
   Communications technologies
   Library science

7. Social work
   (no specific examples)

8. Other non-S&E fields
   Military technologies
   Parks, recreation, leisure and fitness studies
   Other non-S&E fields that cannot be classified using the fields listed above
   Also, use this category for R&D that involves multiple non-S&E fields if it is impossible to report multidisciplinary or interdisciplinary R&D expenditures in specific fields.
Question 10. Of the amount reported for Other federal sources in Question 9 (row K, column g), which agencies funded this R&D and how much of the reported amount was from each agency?

If your institution reported $0 in Question 9, row K, column g, check here and go to Question 11.

- Use rows a–j to list up to 10 agencies that funded the largest R&D expenditures.
- Use row k to report any remaining amount.
- For subrecipient funding in this question, list the sponsor of the original award.
- Please see “Related Information” on the survey website for a list of federal agencies and their subagencies.

<table>
<thead>
<tr>
<th>Federal agencies (list up to 10)</th>
<th>R&amp;D expenditures (Dollars in thousands)</th>
</tr>
</thead>
<tbody>
<tr>
<td>a.</td>
<td>$__________</td>

</tr>
<tr>
<td>l. Total (should match Question 9, row K, column g.)</td>
<td>$__________</td>
</tr>
</tbody>
</table>

1 The column total is automatically generated on the Web survey.

Question 11. How much of the federal R&D expenditures reported in Question 1, row a, was funded by the American Recovery and Reinvestment Act (ARRA)?

```
<table>
<thead>
<tr>
<th>R&amp;D expenditures (Dollars in thousands)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total R&amp;D expenditures from ARRA funds</td>
</tr>
</tbody>
</table>
```
Question 12A–B. What were your FY 2014 R&D expenditures in the engineering and physical sciences fields funded by the nonfederal sources below?

- The totals in row K, page 20, should match the corresponding sources in Question 1, rows b–f.
- If an individual project involves more than one of the 36 fields of R&D, please prorate expenditures when possible and report the amount for each field involved.

<table>

</tr>
</tbody>
</table>

1 Information from confidential items is not published or released for individual institutions; only aggregate totals will appear in publications. In accordance with the National Science Foundation Act of 1950, as amended, and other applicable federal laws, your responses will not be disclosed in identifiable form to anyone other than agency employees or authorized persons.

2 Totals are automatically generated on the Web survey.

Question 14. At the end of FY 2014, what were your institution’s dollar capitalization thresholds (in thousands) for software and equipment?

| Dollars in thousands |
|----------------------|----------------|
| (1) Software         | (2) Equipment |
| Capitalization thresholds |      |
| $5.0                  | $5.0         |
Question 15A–C. For the R&D fields below, what portion of your FY 2014 R&D expenditures went for the purchase of capitalized R&D equipment?

Question 15 total (row K, column c) should match Question 13, row c (Capitalized equipment).

<table>

</tbody>
</table>

**Total for row K, column c, should match Question 13, row c (Capitalized equipment).**

$^1$ Row and column totals are automatically generated on the Web survey.

Examples of disciplines for non-S&E fields of R&D are listed on page 16.
Question 16. How many principal investigators and other personnel (headcount) were paid from the R&D salaries, wages, and fringe benefits you reported in Question 13, row a?

- A principal investigator (PI) is designated by your institution to direct the R&D project or program and be responsible for the scientific and technical direction of the project. Co-investigators (co-PIs) may be designated for this role and should also be included in column 1.
- Count each person only once.
- If a person serves as a PI or co-PI on one project and other personnel on another project, count that person as a PI.
- Include all personnel and students paid from R&D accounts regardless of how much they received.

<table>

</tr>
</tbody>
</table>

1 The row total is automatically generated on the Web survey.

Question 17. Of the headcount reported in Question 16, column 3, how many are categorized as postdocs?

NSF defines postdocs as meeting both of the following qualifications:

1. Holds a recent doctoral degree, generally awarded within the last 5 years
   - PhD or equivalent such as an ScD or DEng or
   - First professional degree in a medical or related field (MD, DDS, DO, DVM) or
   - Foreign equivalent to a U.S. doctoral degree

2. Has a limited-term appointment, generally no more than 5–7 years
   - Primarily for training in research or scholarship and
   - Working under the supervision of a senior scholar in a unit affiliated with your institution
